

A Trusted Managed Services Provider

Data Intensity is a trusted Managed Services Provider, delivering business transformative solutions and services tailored to help our customers succeed in a hybrid, multi-cloud world. Our purpose-built solutions and services target the technologies and platforms that power our customers' business transformations — from front-end strategy and design to implementation and migration to ongoing support and operation — **all from a single provider.**

Why work with Data Intensity?

A Focus on Investment Protection

Unlock the value of your applications, data, and technology investments across Oracle, Microsoft, or OpenSource.

A Commitment to Our Customers and to Strategic Flexibility

Enterprises have similar needs, but every implementation is different. We build custom application solutions on proven standards.

Vendor Certification, Clear Results, Resource Breadth & Depth

Platinum- and Gold-Certified, we've produced total customer savings nearing \$1 billion, yet maintain a boutique service approach.

Enterprise-Class Compliance and Security Capabilities

You cannot afford to miss a beat on enterprise compliance and security. Manage and monitor them continuously and efficiently.

A Hybrid Model Applied Correctly and Consistently

We are cloud-expert, yet cloud-agnostic. Manage your workloads in the cloud or in data centers while unifying operating models.

Cost-Management Expertise in a Hybrid Environment

Optimizing costs in hybrid/multi-cloud environments is challenging and complicated. Gain expert-grade service levels.
