DATA INTENSITY

TCO Transformation Assessment

De-mystifying the architecture, licensing, and costs of enterprise cloud migration

Reliable, Data-Driven Recommendaions from Certified Oracle Experts

As an Oracle Strategic MSP partner with more than 20 years of experience in the design, implementation, and management of Oracle workloads, Data Intensity is uniquely positioned to help companies navigate the complexities of migrating Oracle workloads to public clouds.

Data Intensity's Total Cost of Ownership Transformation Assessment is the perfect way for clients to fully grasp the implications and cost benefits of migrating from an on-premise environment to the cloud, or switching between popular cloud providers.

The Assessment is thorough discovery of a clients' current cloud consumption, contracts, and spend, as well as discussions of planned business growth and industry changes.

Following discovery and data gathering, our experts compile a comprehensive report that contains:

- 1:1 architecture mapping to alternative cloud service options, including licensing costs and options, as well as deployment timelines
- Multi-year view of costs for each option
- Recommended, data-driven solution for accelerating transformation, based on client needs, cost savings, and ease of migration

TCO Transformation Assessment Benefits:

- Predictable Opex Reduction
- Capital Cost Reduction
- Oracle Effective License Position Verfication
- Cloud Architecture Mapping
- Discounted Migration Costs

Trusted By Clients for More Than 20 Years

500 Cloud Migrations

More Than 3,500 Implementations

200+ Completed TCO Assessments

16,000+ Managed Environments

About Data Intensity

Data Intensity is an Oracle Strategic MSP partner delivering managed services for the complex lifecycle of Oracle-powered workloads. Offering a complete portfolio under one roof, we provide full-stack, technical, and functional application managed services on any cloud.

Additionally, we maximize and future-proof our clients' Oracle investments through effective license position assessments and cloud-independent migration services. Learn more at **www.dataintensity.com.**
