What We Do

Data Intensity helps organizations optimize, modernize, and manage Oracle environments.

Combining deep Oracle expertise with data-driven insights, we help customers reduce risk, improve performance, maximize investments, and prepare for what's next.

Whether you're extending existing investments, modernizing technology, moving to the cloud, or evaluating Oracle Fusion Cloud Applications, we help you determine the right path forward with confidence.

Why Work with Data Intensity?

- **Data-Driven Guidance.** Recommendations grounded in operational, infrastructure, and licensing data.
- **Proven Results.** Trusted methodologies, successful outcomes, and long-term client relationships.
- **Deep Oracle Expertise.** Certified experts focused exclusively on Oracle technologies and maximizing value from those investments.
- **Custom Modernization, No One-Size-Fits-All Approach.** The right next step for your business, not someone else's roadmap.
- **Business Outcomes First.** Recommendations are aligned to your business goals, not technology for technology's sake.
- **A Strategic Partner for the Long Term.** Guidance and expertise that evolves with your business.

A strategic partner to help you optimize investments, modernize with confidence, and manage what's next.

How We Help Our Clients

Optimize.

Get more from what you have.

Oracle Applications

Get more from the applications that run your business. From EBS, PeopleSoft, Hyperion, and JDE to Fusion Cloud, we help improve performance, reduce complexity, and maximize existing investments.

Licensing & Support Optimization

Protect your investment. Maximize its value. Reduce licensing risk, uncover savings opportunities, and make smarter decisions with guidance from Oracle licensing and SAM experts.

Modernize.

Move forward when you're ready.

Cloud & Infrastructure Modernization

Build a stronger foundation for what's next. Modernize infrastructure, improve performance, and prepare for future growth across OCI, Azure, AWS, and hybrid environments.

SaaS & Fusion Cloud Application Services

Move to Fusion Cloud with confidence. From Fusion readiness and strategy to migration, analytics, and optimization, we help clients maximize the value of Fusion Cloud.

Data & Analytics

Turn your valuable data into better decisions. Build modern data platforms, improve visibility, and apply AI to Oracle applications to put trusted insights in the hands of those who need them.

Manage.

Your partner for the long haul.

Managed Services

Focus on your business. We'll manage the technology supporting it. Oracle experts monitor, optimize, and support your environment, so your team can focus on higher-value projects.

Database Services

Keep critical systems running at their best. Monitoring, tuning, patching, upgrades, and expert support for Oracle, SQL Server, and multi-platform DB environments.

Security Operations and Compliance

Strengthen security without adding complexity. Reduce risk with security monitoring, data protection, SOC-as-a-Service, and compliance-focused services to strengthen resilience.

Smarter Oracle Decisions. Better Business Outcomes.

Whether you're optimizing current investments, modernizing infrastructure, or planning what's next, our experts can help. Let's talk.
